

vCamMX Mini System

The versatile vCamMX mini inspection camera system is a compact all-in-one inspection camera at an affordable price. Available in two lengths of pushrod and with two sizes of user changable cameras the system can inspect lines from 45 to 100mm. The vCamMX mini camera has all the features of the larger pushrod camera systems such as locatable sonde, traceable pushrod, distance counter, internal rechargeable batteries and built-in microphone for voice over. The vCamMX can be purchased as a complete all-in-one unit with the control module mounted to the reel or purchase the reel separately to use with the vCam-5 control module.

Internal microphone for audio commenting over recording videos.

Wi-fi and Hot-Spot options.

8" daylight viewable display.

Record direct to USB drive in AVI video format.

One-touch recording and JPEG still image capture.

2 x Digital zoom viewing.

Automatic backup of videos and pictures to SD Card.

Large keypad usable while wearing gloves.

Locatable dual frequency sonde and traceable pushrod for pinpointing and mapping out lines.

Internal rechargeable battery provides more than five hours of battery life.

Choice of two interchangeable camera heads.

Lightweight durable carbon fiber pushrod drum.

D18-MX 0.7" / 17mm fixed position camera.

D26-MX 1" / 26mm self-leveling camera.

Range of camera skirts upto 4" / 100mm.

- 1 year warranty covers entire system.
- A Camera exchange program is available for out of warranty camera heads.
